## 1. Project Description

Name of Sub project:	Kchchaveli Agrarian Service Centre Modernization and Digitalization (Civil Work) in Kuchchaveli DS Division in Trincomalee District.
Geographical coverage and location of the Subproject	<p>Province : Eastern Province  District : Trincomalee  DS Division: Kuchchaveli DSD  ASC : Kuchchaveli Agrarian Service Centre  Located GN:Kuchchaveli GN Division  Location Map:</p>  <p>Source: ASC, Kuchchaveli</p>
Nature of the sub project:	It is mainly a repairs of Kuchchaveli ASC at Kuchchaveli Divisional Secretariat Division in Trincomalee District.
Size/ scale/ Cost of the Sub Project	Rs.7,460,000.00

Project implementing agency:	Department of Agrarian Development, Trincomalee which is the implementing agency. DAD with its network of officials based in the ASCs directly involved in implementing the subproject. Similarly, the staffs of the CSIAP based in national to divisional level will also involve in different stages of the implementation process appropriately. It is expected that all the service providing agencies such as Department of Agriculture, Department of Irrigation, Forest Department, Department of wildlife & Coconut development board etc. will also support to implement the subproject effectively. From the community side, FOs, agriculture committee associated with the ASCs, WFOs will also contribute to implement the project. Similarly, the farmers in general will support to implement the project by tolerating the difficulties that would be created during the construction period.
Specific objective and beneficiaries of the sub project:	<p>For the ASC to function in the CSIA Project area as a sophisticated, modernized well-furnished and a resourceful one stop service center catering to present and future needs of farming community in order to increase their livelihood, income and agriculture productivity.</p> <p>Beneficiaries: 1171 Male and 429 Female will be benefited from this sub project. And 366 women headed farm families also will be benefited. Also, women from all committees namely FOs, WFOs, and all women in the farming society also will benefit.</p>
Sub Project Descriptions:	<p>Proposed sub project of repairs of Kuchchaveli ASC include following activities,</p> <p><u>New intervention</u></p> <ol style="list-style-type: none"> <li>1. Construction of Tube Well Supply and fixing 1" dia electrical submersible water pump, supplying and installing wire.</li> <li>2. Construction Wash Room and Toilet Excavation for foundation, cement concrete, filling under floors with earth, cement &amp; sand block work, plastering, painting, door work, ceramic works &amp; pipes.</li> </ol> <p><u>Rehabilitation works: -</u></p> <p>Repair of ASC Repairing works in ASC building that work include following activities such as</p> <ol style="list-style-type: none"> <li>1. Demolisher Works Brick work in cement, debris cleared.</li> <li>2. Sawn Timber Formwork - Shuttering for beam</li> <li>4. Bricklayer - Brick work</li> <li>5. Roofer</li> <li>6. Carpenter &amp; Joiner</li> </ol>

	<p>7. Plaster  8. Plumbing Works  9. Painting Works  10. Electric Work  The sub project will be implemented during the period from January 2020 to October 2020.</p>																														
Land Acquisition	The proposed subproject does not involve land acquisition.																														
Subproject Justification	<ul style="list-style-type: none"> <li>✓ Reasons for the repair of the existing ASC (civil work) is majority of the respondent and the persons interviewed responded that the space available within the existing building was not adequate at all to provide a better service for the increased demand of the farmers.</li> <li>✓ Officer space for running various units of the service providers of the government sector is not adequate.</li> <li>✓ Storage facilities for seed paddy, fertilizers etc. also limited. In many of the centres, there is no proper and spacious place with necessary equipment to conduct awareness programmes for the farmers. Sanitary and waiting room facilities for both the staff and the farmers are not in a satisfactory situation. Furniture available is also not adequate.</li> <li>✓ Proper sanitary facilities needed for farmers that's why repairing washroom and toilet will helpful for farmers. Most of the peoples of this ASC division doing paddy cultivation. Access to water is a problem in this ASC. Therefore, tube well is needed.</li> </ul>																														
General Profile of the Community	<p>Under the Kuchchaveli ASC, there are 09 GND. The total numbers of families are 2520 and total number of women headed farm families are 342. The details are below:</p> <p>Table No: 01 General Profile of the Community</p> <table border="1"> <thead> <tr> <th>Name of the GND</th> <th>Number of GND</th> <th>No of Villages</th> <th>Total Number of Families</th> <th>Total Number of Farm Families</th> <th>Total Number of women headed farm Families</th> </tr> </thead> <tbody> <tr> <td>Iranaikkerni</td> <td>239A</td> <td>03</td> <td>171</td> <td>160</td> <td>28</td> </tr> <tr> <td>Veerancholai</td> <td>239B</td> <td>02</td> <td>120</td> <td>120</td> <td>20</td> </tr> <tr> <td>Kuchchaveli</td> <td>239</td> <td>04</td> <td>230</td> <td>210</td> <td>40</td> </tr> <tr> <td>Cassim Nagar</td> <td>239D</td> <td>02</td> <td>430</td> <td>415</td> <td>87</td> </tr> </tbody> </table>	Name of the GND	Number of GND	No of Villages	Total Number of Families	Total Number of Farm Families	Total Number of women headed farm Families	Iranaikkerni	239A	03	171	160	28	Veerancholai	239B	02	120	120	20	Kuchchaveli	239	04	230	210	40	Cassim Nagar	239D	02	430	415	87

Primary livelihood of the community

Table No 03 Primary livelihood of the community

	Occupation	Total numbers of Persons
01	Paddy Farmers	2130
02	High land farmers	319
03	Fishing	995
04	Others (Business, Daily wages)	5321

Source - Source - Divisional statistical Hand book, Kuchchaveli, 2018

Most of peoples doing several livelihood activities like farming, fishing, Business and daily wages.

Nature of the land ownership for the subproject

Land of the existing ASC owned by the DAD. ASC has adequate and underutilized lands for the proposed construction. Therefore, the proposed civil work will not have any risks from having to obtain additional land. Therefore, the subproject activities can be implemented without causing any displacement or impact to people living adjacent to the ASC. Issues in resettlement will not arise.

Land ownership pattern of people in the area (Ex:

- Major land extent - 625 Ac
- Minor land extent - 1642 Ac
- Rainfed land extent - 5335Ac

squatters, titleholders, tenants)?	
Gender Issues	<p>Following is a description of the gender issues are concerning the communities in the impact area of the Kuchchaveli ASC:</p> <ul style="list-style-type: none"> <li>▪ In the farming activities, both men and women are actively involved in this ASC and women farmers actively involved in farming activities such as land preparation, seeding, planting, weeding, harvesting, preparation for marketing and they more contribute to livestock management.</li> <li>▪ In the every farming activity, allocated payment of wages for female labour is much less than the male labour. However, female headed family labours are hired for farming activities without proper allocated wages and faced more difficulties.</li> <li>▪ In the ASC division Farmer Organizations (FO) and Women Farmer Organizations (WFO) are actively participated in each GN Divisions. In the paddy cultivation process are handled by Farmer organizations only. Same time not included the women farmers as executive committee members and males are dominated to decision making process and give less opportunity for female farmers.</li> <li>▪ WFO also actively participates in each GN Divisions and they have limited opportunities for agriculture related trainings, trainings on machinery and technology due to increasing the responsibilities and work load in their homes. Women headed family farmers also faced difficulties for access the market in proper time and they not have sufficient storage facilities or value addition facilities.</li> <li>▪ Cultural and Religious norms also restrict the Tamil and Muslims female participants in agricultural support activities and widows are not willing to participate the Farmer organizations and agriculture related trainings or workshops.</li> <li>▪ In this ASC division have around 342 Women headed farm families and they have additional problems in farming process due to not have land ownership which restrict to access the water facilities and fertilizer subsidies.</li> <li>▪ In the Kuchchaveli ASC division, there are two toilets and one is fully damaged and unusable condition. Another one is used by ASC staffs and farmers who visit to the ASC to receive the services. It is not enough to full fill the needs of the farmers as well as officers.</li> </ul>

<p>Social Capital - community-based organizations</p>	<p>The following community based organization identified in Kuchchaveli ASC Division.</p> <ul style="list-style-type: none"> <li>- Farmer Organization (FO) : F:O-09</li> <li>- Woman Farmer Organization (WFO) : W:F:O - 33</li> <li>- Rural Development Society (RDS) : R:D:S - 12</li> <li>- Woman Rural Development Society (WRDS) : W.R.D.S - 10</li> <li>- Fisheries Society (FS) - 04</li> <li>- Veterinary Society - 02</li> </ul> <p>Source - Divisional statistical Hand book, Kuchchaveli , 2018</p>
<p>On-going Development Projects</p>	<p>There are no development projects being implemented in the project area.</p>
<p>Frequenting Visitors</p>	<p>Kuchchaveli is a tourist place in here tourist coming for “Thriyai Pansala” and beach. Also, outside peoples coming for Inland fishing / fish business and farming.</p> <p>Farmers (Men and Women) visit to ASC for getting fertilizer and subsidies.</p>
<p>Social Impacts Positive Impacts</p>	<ul style="list-style-type: none"> <li>• This subproject will benefit the local population of the area, especially for farming communities.</li> <li>• The proposed activities mostly benefited to farmers. Sanitation facilities leading to better hygienic conditions for those using the facilities. ASC will also make available drinking water for all people visiting the ASC.</li> <li>• ASC will also serve as a place for ASC staff and community to interact, to share knowledge and create awareness about project. Therefore, the ASC will enhance community participation and relationships between ASC staff and farmers.</li> <li>• Once the project is complete, benefits will start to flow almost immediately with the onset of rain and the long term through enhanced resilience.</li> <li>• The two communities interacting with each other, government officers and contractors in the process of jointly conducting social auditing, participating in irrigation water management, training and extension, business development and marketing will reap benefits in the form of valuing working together despite differences along with increased knowledge and awareness.</li> </ul>

	<ul style="list-style-type: none"> <li>• Overall, the completed project will bring about poverty reduction, inclusive development and shared prosperity.</li> <li>• CSIAP staffs and community people share their knowledge and make awareness of this project through this community participation also enhanced. Staff of ASC division and farmer's relationship will enhance.</li> </ul>
Negative Impacts	<ul style="list-style-type: none"> <li>• During office hours noise and dust come from the construction work that will disturb to officers and farmers.</li> <li>• A labour camp may be established and there could be impacts from labour influx-however, will be very minimum considering that only limited number of labourers (approximately 5) may come from outside.</li> <li>• There are no any sensitive areas (Schools, preschools, hospitals, community centres, health centres) observed near to the construction site.</li> </ul>
Mitigation Measures	<ul style="list-style-type: none"> <li>• The social issues in any infrastructure developments project are common and cannot be avoided. Also, it is important to note that the majority of social issues are emerged and aggravated due to absence of realistic methods of constructions and systematic approach.</li> <li>• For example, contractor will be required to do water sprinkling to minimize impacts from dust and carry out noise generating work during day time while ensuring noise pollution is kept to the minimum. Public access to the site will be prohibited or controlled via adequate fencing and signage in order to avoid risk to the public.</li> <li>• There will be special arrangements at worksites closer to schools at the time of starting and closing of preschool and schools.</li> <li>• All contractors will be required to develop and implement written labour management procedures, including procedures to establish and maintain a safe working environment.</li> <li>• Adequate care and measures will be taken to avoid any violation of use of labour accidents, or disputes with local communities due to use of non-local labour force used for constructions, risks associated with influx of non-local workers.</li> <li>• The contractors will be encouraged to use as much as possible locally hired labour.</li> </ul>

- Since the civil construction works will be carried out using proper construction practices and there will be no adverse impacts on the properties, residential and other structures of the community located at a distance from the site. However, there will be some temporary impacts due to the project implementation in respect of which mitigation measures are proposed.
- The contractor will also be required to employ an environmental and social officer to address any issues that may crop up during project implementation. All contractors will be required to develop and implement a code of conduct for labourers, including procedures to establish and maintain a safe working environment.
- The staff and workers will also be given an orientation on appropriate behaviours to ensure no disturbance to the community life and officers of the ASC. Adequate care and measures will be taken to avoid any violation of use of labour, accidents, or disputes with local communities and other risks associated with influx of non-local workers.
- Through the relevant officials the FOs will request the contractor for employing local labour to the maximum extent possible and hire village vehicles for material transport. Any individual requests for service by the contractor will be conveyed to the authorities and will be attended to without compromising the project activities and social and environmental concerns.
- The mitigation measures including the appointment of an environmental and social officer, will be included in the specifications for the main contract, and monitored by the project management to ensure compliance.
- Grievance redress mechanism will be established to allow ASC staff to raise any complaints and provide feedback regards construction activities.

<b>2. Social Screening Checklist</b>				
Screening/ assessment questions Project type	Yes	No	Low/ mediu m/maj or impact s	Description/ Details
<b>Background</b>				
1. Will the subproject/ intervention include new physical construction work? (Attach a copy of technical design) and what is extent of the works - small, medium, large?	√			Construction of Tube well, Construction of washroom and toilet. These are minor/small scale construction.
2. Does the subproject/ intervention include upgrading or rehabilitation of existing physical facilities? (Attach a copy of technical design) and what is extent of the works - small, medium, large ?	√			Repair of ASC  These are small sale rehabilitation.
<b>Project site and land acquisition and Livelihood Related Impacts</b>				
3. Is the site chosen for this work free from encumbrances (Ex: squatters, crops, trees, houses, other structures walls etc)		√	Low	Small Neem tree -2
4. Is the site chosen for this work in possession of the implementing agency?	√			Department of Agrarian Development, Trincomalee which is the implementing agency.
5. If the land is owned by other government agencies, has action been taken to transfer these lands to CSIAP managing entity? (Attach evidence of transfer)		√		The identified land belongs to Agrarian Department, Trincomalee.
6. Does the sub project intervention require acquisition of private land?		√		
7. If the land parcel has to be acquired, is the actual plot size and ownership status known? (Mention the details)				Not Applicable
8. If the site is privately owned, can this land be purchased through negotiated settlement?				Not Applicable

9. If any land required for the work is privately owned, are these land owners willing to voluntarily donate the required land for the CSIAP rehabilitation / development? (if yes attach the concern letter)				Not Applicable
10. Will the affected land/ structure owners likely to lose less than 10% of their land of structures area?				Not Applicable
11. If so, are these land or structure owners willing to voluntarily donate the required land for this sub project?				Not Applicable
12. If the land owners are willing to donate the land, do they lose more than 10% of their land / structure in this location due to of donation?				Not Applicable
13. Are there any previous land acquisition where the identified land has already been acquired?		√		
14. Is the land for material mobilization vehicular movement, transport for the civil work available within the identified worksite or right way?	√			Land for the material mobilization vehicular movement and transport for the civil work are available. Near the construction site, there are government departments, schools and library observed. Therefore, lack of parking space will not be serious issue in the subproject area.
<b>Project impacts</b>				
15. Is the project/ intervention likely to cause any permanent damage to or loss of housing, other assets, resources use?		√		
16.If yes, are these damages likely to be full or partial (Ex: entire structure having to be demolished versus part of the structures being damaged?)				Not Applicable
17. Will there be loss of / damage to agricultural lands, standing crops,	√		Low	Two neem trees observed in identified place.

trees due to acquisition of lands, construction of facilities etc?				
18. Will there be any permanent or temporary loss of income and livelihoods because of the civil works? If so for what period? Also, please specify whether it is likely to be temporary or permanent.		√		
19. Have these people/ businesses who may suffer temporary or permanent loss of incomes or livelihoods been surveyed and identified for payment of any financial assistance?				Not Applicable
20. Will there be any adverse impacts (inconvenience/ restriction of access, damage to properties) on the people/ communities due to construction related transport/ other activities etc?		√		But during working hours there will be some disturbances to staff i.e. from noise and dust.
21. Will there be any impacts on cultural, community properties or facilities?		√		
22. Will the project cause any other temporary or permanent impacts? Pls describe		√		
<b>Livelihoods related impacts</b>				
23. is there any loss of crops, assets, business etc.		√		
24. Are there any non-titled people (squatters) who are living/ or doing business who may be partially or fully affected because of the civil works?		√		
25. Have measures been planned to mitigate temporary impacts including ease of access? Give details?	√			Temporary impacts will be addressed/mitigated according to the SIMP.
<b>Resettlement impacts</b>				

26. Does this project involve resettlement of any person? if yes, give details		√		
27. Is there any physical displacement of persons due to project construction?		√		
28. Does this project cause any temporary relocation of people during construction?		√		
29. Is there any economic displacement (possibility to move out, close of business/ commercial/ livelihood activities of persons) during construction?		√		
30. Will people permanently or temporarily lose access to facilities, services, or natural resources? e.g firewood collection and other rural livelihood sources linked to forests and government land		√		
31. Are there any vulnerable people/ groups (poorest/ women headed households/ elderly families, single parents, families with disable persons) living in the proposed locations or affected / benefitted by the project intervention? (give the number)	√			Vulnerable people/groups will not be negatively affected due to the civil works. They will be benefited directly or indirectly. The details are below: Samurdhi beneficiaries- 38 families
32. Are there any indigenous people living in the proposed locations or affected/ benefitted by the project intervention? (give the number)		√		
<b>Impacts from labor influx</b>				
33. Will the project potentially involve an influx of workers to the project location?	√			
34. Will the influx be considered significant for the local community?	√			

37. How many workers will be needed for the sub project, with what skill set, and for what period?	√			Approximately 12 skilled workers and 25 unskilled workers are needed for 3-4 months.
36. Can the project hire workers from the local workforce? And what is the size and skill level of the existing local workforce?	√			Skilled labours- 1417 M-658, F-759 Unskilled labours - 2,373 M - 1,219, F-1,054
37. If the skill level of the local workforce does not match the needs of the project, can they be trained within a reasonable timeframe to meet project requirements?	√			Workforce is available at the local community and contractor will bring his workforce if needed.
38. Will there be workers brought in from outside?	√			
39. How will the workers be accommodated? Will they commute or reside on site? If so, what size of camp will be required?		√		They will find a house for rent.
40. Based on the socio-economic, cultural, religious and demographic qualities of the local community and the incoming workers, is there a possibility that their presence or interaction with the local community could create adverse impacts?		√		Hence, majority of the incoming workers would be from similar socio-economic, cultural, religious or demographic background.
41. Will the incoming workers use or create competition for these resources?		√		
42. What is the expected duration of the incoming workers' presence in the community? Or frequency and extent of contact between the local community and outsiders?				Approximately 3-4 months.
43. Will the incoming workers be from a similar socio economic, cultural, religious or demographic background?	√			Most Probably similar.

44. Given the characteristics of the local community, are there any adverse impacts that may be anticipated?		√		The local community is Tamil speaking and majority of them are Tamils. So same language speaker will be preferable for minimized unwanted social issues.
45. Is the project located in a rural or remote area?	√			The identified project site is located in a rural area.
46. Is the project located / being carried out in an area that is not usually frequented by outsiders?	√			Kuchchaveli is a tourist place but farmers (men and women) visit to the ASC for getting fertilizer and subsidies.
47. Are there sensitive social conditions that need to be considered?		√		
<b>Community participation</b>				
48. Has the project received community consent and support?	√			1 IEC Campaign conducted. 1 CBO meeting conducted.
49. Are there any CBOs or other that exist in the selected locations?	√			Farmer org - 09 Women Farmer Org: 31, RDS -12, WRDS - 10, Woman Society - 09, Voluntary service organization - 10, Children's club - 02, Youth club - 09, Sports club - 06
50. Will the project mobilize these CBOs for GRM/ Social Audit/ etc activities?	√			Grievance Redressal Committee will be established to address/ resolve issues.
51. If CBOs are involved, do these organizations have prior experiences in GRM/ Social Audit/ etc practices?		√		The project has to be trained the people.
52. Do the CBOs identified for the CSIAP activities transparent and accountable and free from any form of corruption/ abuse?	√			
53. Will the project expect any counterpart contribution from the beneficiary households? (if yes, what is the expected contribution)	√			Community can support with Shramadana activities 3 persons from each FO can

				contribute two hours per day shramadana activities. (e.g. unskilled voluntary work).
<b>Gender Based Violence</b>				
54. Is the subproject in an area of the district with a humanitarian or emergency situation?		√		Rehabilitation works of ASC Kuchchaveli.
55. Undertaken consultations with women's groups?	√			In the ASC Division arranged one community consultant meeting, both men and women farmers were participated and no arranged separate meeting with women farmers. Two discussions conducted with ASC staffs.
56. Issues related to GBV and GBV-related concerns about the project have arisen in the community engagement discussions?		√		Gender based issues or violence not identified and not recorded during the community consultant meeting and discussions.
57. Are military or paid security forces being contracted as part of the project? (Having military or paid security forces contracted as part of a project can increase the risk of GBV)		√		Contract with registered Contractors.
58. Is the project district in lowest poverty quartile of country? (Regions in the lowest poverty quartile of a country may be underserved and the most vulnerable to neglect)	√			National Poverty line value of Srilanka Rs.4,897.00 expenditure for person per month in Trincomalee District Rs. 4,851.00. (Department of census & Statistics - SrLanka October,2019)  In Kuchchaveli Division income (per month per family)

				<ul style="list-style-type: none"> <li>- 1883 families income come under below Rs. 10,000.00.</li> <li>- 291 families income come under above Rs.10, 000.00 (Income details annexed)</li> <li>- 38 families are Samurdhi beneficiaries (Resource Profile, 2018. Divisional Secretariat,Kuchchaveli)</li> </ul>
59. Is the subproject in hard-to-supervise areas? (Lower risk is easily accessed project areas. Higher risk is hard-to-supervise areas)		√		
60. Is the subproject construction near school route or other pedestrian access that women and girls use for their daily activities?		√		<p>Kuchchaveli ASC, 100m from A9 road and Around 100 family members, officers and public are used this A9 road continuously.</p> <p>Schools - 04 Religious Places</p> <ul style="list-style-type: none"> <li>- Hindu temples- 02</li> <li>- Mosques - 02</li> <li>- Church - 01</li> </ul> <p>Government offices</p> <ul style="list-style-type: none"> <li>- Post office - 01</li> <li>- Ds office -01</li> <li>- Predeshiya Saba - 01</li> <li>- Pulic library - 01</li> <li>- Court - 01</li> <li>- AI office - 01</li> <li>- Irrigation office - 01</li> </ul> <p>Markets or Shops - 12 shops Hospital - 01 Bank - 01(People's Bank)</p>
61. Will the subproject be able to monitor implementation across the full span (both in terms of geographic spread and duration) of the work?	√			

62. Will female workers be in close proximity to male workers with limited supervision?	√		In the ASC modernization project female workers are like to involve in the "Siramadana" work and no any issues in working together with male workers in the limited supervision.
---	---	--	--

### 3. Estimate of Specific Impacts and Information on Affected Persons

Estimates of specific impacts	Number/ Amount/ Ha
- Private land required (Sq. m)	0
- Total number of households affected	0
- Number of individuals losing more than 10% of land area	0
- Government land required	Yes (and available)
- Number of shops affected	0
- Number of utilities affected	0
- Other loses (Numbers)	2 trees due to construction
- Number of workers to be brought from outsides	12 skilled laborares are needed approximately

### 4. Decision on Categorization

<b>Decision on Categorization, After reviewing the answers above, it is determined that the sub project will have:</b>	
High/ substantial impacts	
Moderate impacts	
Low/ no impacts	√

### 5. Impact Categorization

<b>Conclusion and Screening Decision (to be filled by the PMU)</b>
<p>Social impacts of the proposed sub project</p> <ul style="list-style-type: none"> <li>• <u>No Impacts: there is no land acquisition because these are permit lands and no loss of livelihoods if the works are completed during the dry/off season , Social Screening Report (SSR), Social Impact Management Plan (SIMP) [required if civil works involved]...√.....</u></li> </ul>
